PERSONAL PROJECTS

MEDICAL CRISIS MANAGEMENT &SUPPORT SYSTEM WITH GEO LOCATION (2022)

- **Description**: Our system will link all the hospitals in a particular locality. It will provide the current status about the blood banks, ICU, ventilator and casualty services of all hospitals. We can know whether a bed is available in an ICU or not. If an accident occurs in a particular area one can take a photograph and can inform the hospitals about the condition of the patient such that the hospitals can take immediate actions.
- **Technology:php.mysql**

SWEET ZONE (2020)

- **Description: :** Is a website for the users who need sweets and bakery items. It is a location based website. Choose a specific location and trendy sweets at that location only will be available .
- **Technology:Python,mysql**
